

Understand occupancy and confidently optimize spaces

Reduce costs and wasted space by leveraging accurate occupancy data to plan and manage your federal government spaces, buildings, and workforce more efficiently.

Federal government agencies often face challenges in managing their vast and complex office spaces, especially during ongoing return to office initiatives. Eptura's office and space management solutions are designed to meet the stringent requirements of federal government agencies. Our solutions ensure that your buildings operate at peak efficiency, reducing costs and enhancing compliance.

Data point:

In a recent GAO review of 24 federal agency headquarters, 17 used an estimated average of 25% or less of their headquarters buildings' capacity.

Drive efficiency and compliance with Eptura for Government

Strategic space planning

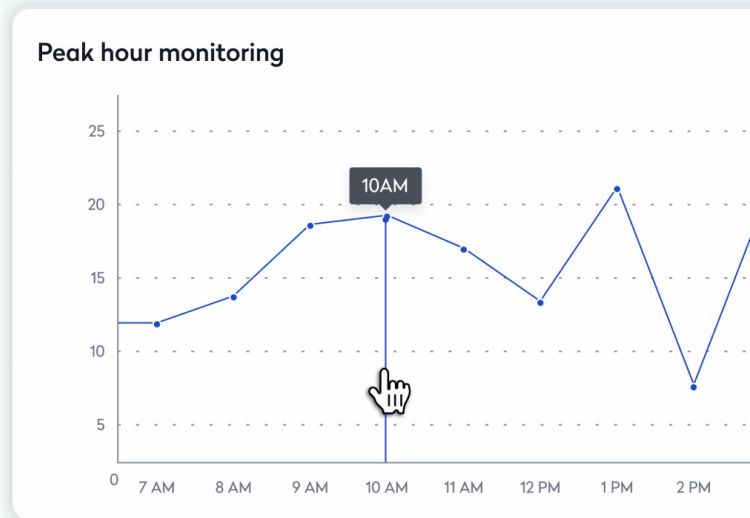

Use space allocation visuals, utilization data, scenario planning, and historical cost allocation data to reconfigure floorplans and monitor how space is being used.

Comprehensive space inventory management

Track detailed information on occupiable and non-occupiable areas, departmental usage of occupiable spaces, common areas, and room assignments.

Space chargeback

Internally bill departments for their occupied space and share of common areas to promote efficient space use, reduce wasted space, and lower overall costs across the organization.

Real-time occupancy reporting

Monitor and report occupancy data in real-time, ensuring compliance with federal mandates and optimize space usage.

Workstation management

Track and manage workstation numbers efficiently, reducing administrative overhead and ensure compliance with reporting standards.

Automated space reporting

Generate comprehensive reports to simplify certification process, ensuring that agencies meet their biennial and annual workstation reporting requirements.

Smoothly **transition** your employees and contractors back into the **office**

Individual desk and room booking

Simplify the process of booking desks and rooms, making it easy for employees to find the space they need.

Conference room booking

With detailed search filters, employees can find and book conference rooms that meet their specific meeting needs, including capacity, equipment, and location.

Hoteling for federal contractors

Plan and design spaces in advance to be flexible, enabling contractors to easily book workspaces and allowing agencies to scale up or down without major space reorganization.

Microsoft Outlook integration

Eptura integrates with Microsoft Outlook, enabling users to find and book spaces directly through their email client, streamlining the booking process.

Centralized service requests

Centralize service requests in one platform, allowing employees to submit requests and receive status updates every step of the way.

work your world™

Eptura connects people, places, and assets in one intelligent worktech platform, enabling organizations to drive more value. Our scale and expertise help organizations to engineer a thriving work environment, by giving them the understanding they need to enhance their employee experience, workspaces, and asset value.
