## THE CHALLENGE

# Managing a **safe** return to work

### Challenges:

01

#### Quick implementation:

Required a solution they could deploy quickly to support their return to office initiative.

02

#### Space planning:

Needed a space planning solution that could help them adhere to new safety protocols.

03

#### Office visibility and collaboration:

Aimed to track who was in the office and facilitate effective teamwork.

In the wake of the global COVID-19 pandemic, the European medical technology company was compelled to act swiftly to find a robust workspace management solution for its offices. Following the government's announcement of new guidelines for returning to work, the company needed a solution that could be implemented quickly to ensure a safe return for its employees while adhering to social distancing protocols. It was paramount that employees felt secure and confident in the measures put in place to protect their health and well-being.

## THE SOLUTION

# Managing office **capacity** and flexibility

This global medical technology company embarked on a search for a comprehensive workspace management solution to facilitate a safe return to work. After a thorough evaluation of five technology providers, Eptura emerged as the top choice, offering the ideal solution for their needs. Eptura's user-friendly workspace management solution enabled the company to control office capacity by managing the number of employees present at any given time, ensuring strict adherence to government guidelines on social distancing.

Eptura's solution provided employees with the flexibility to choose their working days, allowing them to balance their in-office and remote work schedules effectively. The platform features detailed graphical floor plans accessible via a web interface, complete with a colleague search function. This feature enabled employees to easily see which days their teammates would be in the office, fostering better coordination and collaboration.

### Eptura solution:

## THE RESULTS

# Executing a safe, flexible, and efficient office return

### Employee experience results

- ✓ Employees felt safe returning to office
- ✓ Enhanced employee experience with flexible scheduling tools
- ✓ Easy access to colleague locations for improved coordination and collaboration
- ✓ Tools for effective work week planning

### Space management results

- ✓ Controlled office capacity in real-time
- ✓ Quick 2-week implementation
- ✓ Efficient tracking to ensure social distancing, effective sanitization, and contact tracing

The rapid project delivery by Eptura's professional services team meant the solution was up and running in less than two weeks. This quick turnaround was critical to overcome the enormous challenge they face transitioning to get employees back into the office. Since the efficient implementation of Eptura, employees have felt safe returning to the office knowing the right measures are in place to ensure social distancing between employees, effective sanitization of desks, and contact tracing in the potential risk of infection.
